MEMORANDUM

TO: Old Sun Community College Staff and Students

FROM: Dr. Maurice Manyfingers, President – Old Sun Community College

RE: Old Sun Community College COVID -19 Protocols and Guidelines

DATE: September 17, 2021

Oki.

Effective September 20, 2021 (Monday) all students and staff at Old Sun Community College will be required to show COVID – 19 Proof of Vaccination to gain access and entry onto our campus. All OSCC students and staff must provide proof of at least one vaccination. All students and staff that cannot provide proof of vaccination will be denied access onto the campus of Old Sun Community College by our security personnel.

It has been decided to keep our OSCC campus open to in-person learning for students and staff. OSCC Students that cannot show proof of vaccination can continue with on-learning. It has been decided that in person learning is preferred over online learning and we will not be closing the Old Sun Community College campus.

If there are students and staff that have children who attend Siksika Board of Education schools, who have decided to close their schools from September 20 to October 12, 2021, then accommodations will be made for their continued online learning and employee arrangements to work from home.

In addition, the Old Sun Community College 50th and 30th Anniversary activities scheduled for September 20 – 22, 2021 will go ahead as scheduled. Most of these activities are being held outside and there are no restrictions for outside activities. However, no children will be allowed at our OSCC Anniversary activities because they have not been vaccinated and we do not want to put our Siksika Nation children at risk for transmission of the COVID – 19 Virus.

Stay safe and look after yourself and each other.

Maurice
